One Page Report of the Group Discussion

Topic of the Group Discussion
"Cashless economy is benefited to Indian Economy"

Name of the Coordinator: Prof. Shirish Samel

On August 22, 2018, group discussion was conducted in the classroom on the topic "Cashless economy is benefited to Indian Economy?". I would say that the discussion was successful.

There were three groups in discussion, first who was in favour that India is benefited for the cashless economy, second against it and third one was neutral. The aim of this group discussion was to enhance the confidence, communication skills, leadership quality and thinking capacity. The points discussed in the favour of the topic were like "restricts fake currency issues, an economy booster, cost reduction strategy, risk reduction, increasing the tax base, reduced corruption & promotes transparency in the transaction" and the points against it were like "concerns for uneducated people, limitations of internet connectivity, fear of hacking and cyber security".

Overall the discussion was positive because each one of us contributed good information and everyone listened with the utmost interest when other members were sharing their ideas. Speaking in the group discussion is gradually bringing everyone in mainstream by boosting their self-confidence.
